Prologue

Dear customer,

Thank you for choosing Sygic GPS Navigation iOS – Next Generation.

Sygic GPS Navigation software is a complete navigation system with **realistic 3D maps**,**accurate search** and precise **route computing**.
Sygic GPS Navigation goes beyond professional car navigation, supporting pedestrian navigation and basic level for outdoor activities.

We wish you a pleasant and safe journey.

Sygic | Bringing life to maps

Getting started

Sygic GPS Navigation is offline navigation software and does **not require online connection** to operate. Online connection is only necessary during initial installation and activation of the software and for installing **maps and updates**. Online connection is also necessary for optional **add-on services** such as Traffic information and crowd-sourced Police trap alerts.

Your safety and the safety of your passengers is of utmost importance, that is why you should always plan your route before the **beginning of the journey**. Also make sure that you have installed **all maps and updates** while in the comfort of your home or at a place with solid Wi-Fi connection. For longer trips make sure that you have a **compatible charger** to avoid draining the device battery.

In **Navigation Mode** (Pic.1), the software tracks your position for visual reference of the route and map around you. (Please note that it is necessary to have GPS Module enabled on your device during usage).If you want to explore other locations, **tap the screen and click *Cancel route** in right upper corner to switch to **Map Browsing Mode** (Pic.2). If you want to go to **Menu** (Pic.3), please tap **Menu button** in left upper corner(Pic.2).

(Pic.1) **Navigation mode**	(Pic.2) **Map browsing mode**	(Pic.3) **Menu screen**

Dashboard – How to add/modify widgets

Main part of **Menu panel** is **Dashboard**. To easily access frequently used places, you can add multiple **widgets** onto a dashboard:

Free widgets:

- Home location
- Work location
- Location from Favourites list
- Location from History list
- SOS
- Qibla Finder
- Photo navigation

Premium widgets:

- HUD
- Cockpit
- Blackbox
- Travelbook

Setting a widget will allow you to quickly access it without further searching.

1. Tap **Menu button**.

2. Tap **Add widget**.

3. Pick place from **history list/favourites** which you would like to add as a widget to your dashboard.

4. Once widget is added, you can be easily navigated **via widget** by tapping on it.

Step 1.	**Step 2.**	**Step 3.**	**Step 4.**

END USER LICENSE AGREEMENT

Licensor: © 2014 Sygic, a.s. All rights reserved.

BY INSTALLING, COPYING OR USING ALL OR ANY PORTION OF THIS SOFTWARE YOU ACCEPT ALL THE TERMS AND CONDITIONS OF THIS AGREEMENT.

This Sygic End-User License Agreement ("EULA") is a legal agreement between you (either an individual or a single entity) and Sygic for the Sygic product known as Sygic GPS Navigation ("Software Product"). Use of third party materials or data may be subject to other terms and conditions. If you do not agree to terms of this EULA, do not install or use the Software Product.

You may have another written agreement directly with Sygic (e.g., a volume licence agreement) that supplements or supersedes all or portions of this agreement.

Sygic grants you limited rights to use the Software Product (Sygic GPS Navigation) in binary executable form available to you after the installation. Title, ownership rights and intellectual property rights in and to the Software Product remain in Sygic. The Software Product is owned by Sygic or its suppliers and is protected by European Union copyright and patent laws and international treaty provisions.

THE SOFTWARE COPY IS LICENSED TO YOU, NOT SOLD TO YOU, AND YOU ARE NOT AN OWNER OF ANY COPY THEREOF.

You may install, use, access, display, run or otherwise interact with ("Run") one copy of the Software Product either on a single computer, handheld, Car PC, smart phone ("Computer") or on a single Secure Digital memory card. A license for the Software Product may NOT be shared or used concurrently on different Computers.

ALL RIGHTS NOT EXPLICITLY OR EXPRESSLY GRANTED IN THIS EULA ARE RESERVED BY Sygic. THIS EULA DOES NOT GRANT YOU ANY RIGHTS IN CONNECTION WITH ANY TRADEMARKS OR SERVICE MARKS OF Sygic. License for this Software Product is not for transfer, distribution, or disclosure to third parties or use for the benefit of third parties.

All title, and copyrights in and to the Software Product and to the content which may be accessed through use of it, the accompanying materials and any copies of the Software Product are owned by Sygic and its suppliers. You may not decompile, disassemble, modify, reverse assemble, reverse engineer or reduce the Software Product of any part thereof or create any derivative works based on the Software except to the extent such activity is expressly permitted by applicable law notwithstanding this limitation.

Support rules for Sygic a.s. product range ("Software Product") and subscriptions range („Subscription"):
1. Sygic supports only official stable releases of operating system and official firmware updates. Community-based firmware and its modifications can lead to unusable software that might require manufacturer repair. You use these modifications at your own risk.
2. technical support is provided during a period of 6 months from the moment of purchase;
3. use of the product as described in the User Manual is not limited by time restrictions according a purchased unlimited license.

Set up your first route

Dear customer,

this category contains information about how to **set and modify route** and all other **routing possibilities** . such as **Quick search** navigation, **Map tap** navigation, **Widget** navigation, Navigating to a **Favourite/ History/Contact** and Navigating **home**.

Searching and entering a destination

There are several options available for **searching and navigating** to certain destination:

- Navigating via Quick search
- Map Tap navigation
- Navigating to a Favourite/History/Contacts
- Navigating Home
- Setting destination via Widget
- Photo navigation

Navigating via search bar

Quick search navigation:

1. Type state, city, street adress or GPS coordinates into **search bar** on the top of the screen in map browsing mode.

Please note: *It is necessary to type* ***GPS coordinates*** *using decimal degrees format, for example:* ***48.15027 17.12561***

2. When your requested destination is found, tap **Search** button in right upper corner.

3. After that, your **destination** will be shown on map browsing screen. If you want to **set a route** to this destination, just tap **Route** button in right upper corner.

4. Afterwards a route or multiple routes(max.3) will be calculated and shown in violet color. Choose a certain route by tapping on it. To navigate through your chosen route, just tap **Navigate** button in right upper corner.

Step 1.	**Step 2.**	**Step 3.**	**Step 4.**
 Search or enter address 13:42	 Cancel Search Slovakia Bratislava Farská Nearby POI Any Farská (2) Kapitulská Klariská	 Cancel Search Route Farská 2/- Bratislava	 Back Routes Navigate 1st of 3 Routes 3.2km / 6min 3.5km / 7min 4.2km / 9min

Map tap navigation

Map tap navigation:

1. Tap a place on the map to which you would like to be navigated. Afterwards name or address of location will be highlighted in **blue bar**.

2. Click on the **blue bar** to show **Location** options.

3. If you tap **Get directions**, a route or multiple routes(max.3) will be calculated and shown in violet color. Choose a route by tapping on it.

4. To navigate through your chosen route, just tap **Navigate** button in right upper corner.

Step 1.	**Step 2.**	**Step 3.**	**Step 4.**

Navigating to a Favourite/History/Contact

1. For navigating to a place from your **History list**, **Favourites** or **Contacts**, just tap an icon in right upper corner in **Map screen**.

2. Afterwards click on particular place from History/Favourites/Contacts and tap Route.

3. Your destination will be shown in **map browsing screen**. If you want to **set a route** to this destination, just **tap Route button** in right upper corner.

4. **Route** or **multiple routes** (max.3) will be calculated and shown in violet color. Choose a certain route by tapping it. To **navigate** through your chosen route, just tap **Navigate** button in right upper corner.

Step 1.	**Step 2.**	**Step 3.**	**Step 4.**
	 No SIM 16:36 Not Charging Cancel Favorites Edit History Favorites Contacts From: Karadžičova -/14 Bratislava To: Panská 16/17 Bratislava ★ Galéria mesta Bratislavy - Pálffyho palác ★ Bratislava hlavná stanica ★ Cukrová	 Cancel Search Route Slovakia Bratislava Bratislava hlavná stanica	 Back Routes Navigate 1st of 2 Routes 2.5km 16:41 5min with no traffic 2.5km / 5min 3.9km / 7min

Navigating home

Firstly, you have to set your **home location** from favourites/history list .

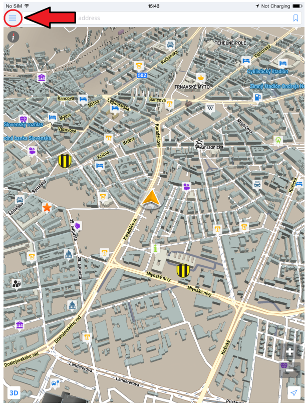
1. Tap **Menu** button.

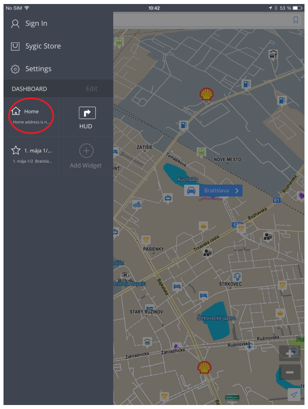
2. Tap **Home** button on the dashboard to set your home adress.

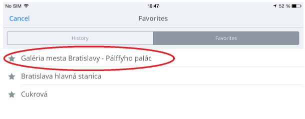
3. Pick your home location from **history/favourites** by tapping it.

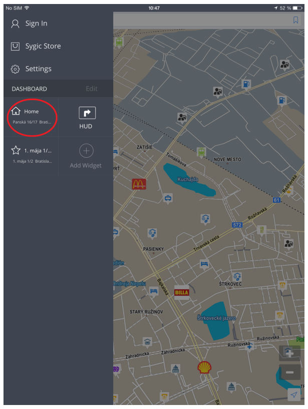
4. Once a home location is set, it is enough just to tap **Home** button again. After that a route to your home location will be calculated.

*It is also possible to set Home widget of new desired home location by tapping **home icon** located in left upper corner of **Location screen**.*

Step 1.	**Step 2.**	**Step 3.**	**Step 4.**
			








Setting destination via Widget

Setting a widget will allow you to quickly access it without further searching.

1. Tap **Menu button**.

2. Tap **Add widget**.

3. Pick a place from **history list/favourites** which you would like to add as a widget to your dashboard.

4. Once widget is added, you can be easily navigated **via widget** by tapping on it.

Step 1.	**Step 2.**	**Step 3.**	**Step 4.**
		 Galéria mesta Bratislavy - Pálffyho palác Bratislava hlavná stanica Cukrová	
If you would like to **edit(remove/replace)** your widgets, just click **Edit button** on the dashboard, afterwards widgets will start shaking, so you will be able to modify them. To **save current widgets** positions, just tap **Done button**

Photo navigation

Sygic GPS Navigation provides you with the ability to navigate to a geotagged photo, which contains information about location of a place where picture was taken.

1. Tap **Photo navigation** widget located on the dashboard panel and select desired photo from your device. If you have not set Photo navigation widget yet, please see article Dashboard – How to add/modify widgets, which contains detailed information about how to do so.

2. After tapping on picture the route will be calculated instantly. To start navigation, simply tap **Navigate** button.

Step 1.	**Step 2.**

Adding location to Favourites

To add a location to your Favourites list:

1. Find desired location in **map browsing mode** or via **Search bar**.

2. Tap on **blue bar** with name of location, so you will get to **Location screen**.

3. To add this location to your **Favourites**, please tap star icon on the left upper corner of Location screen.

4. Once place is added to Favourites, star button in Location screen will turn blue

For information about **navigating to Favourite location**, please see chapter Navigating to a Favourite/History/Contact from this user guide.

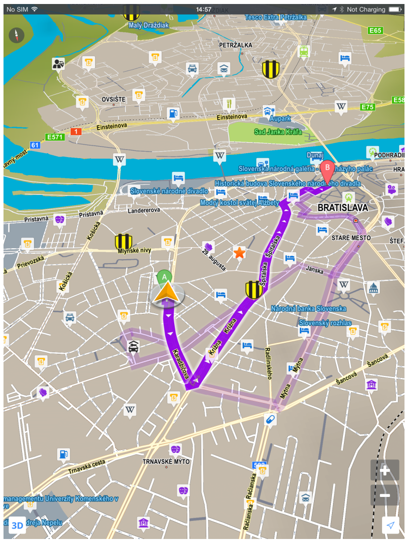
Adding a viapoint

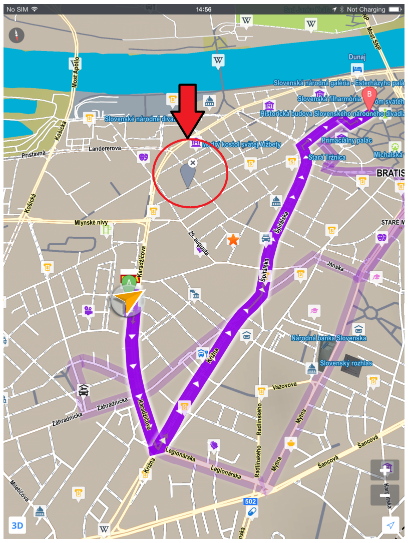
Adding viapoint by Drag & Drop

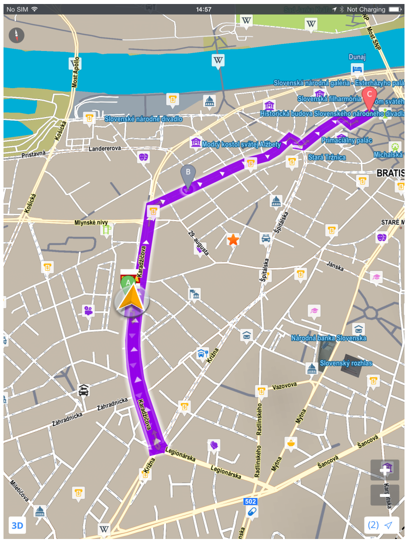
1. In **Map Browsing mode** you can **edit the route** by holding your finger on the route a bit longer until **gray flag** appears.

2. Drag the gray flag to a requested position of **viapoint**.

3. The route will be altered to **pass through** that place. With **Drag & Drop** function you can also change starting point or destination point of your route.

1. Route view	2. Adding waypoint	3. Added waypoint
		






Adding viapoint by Map Tap

1. Tap on a place on the map which you would like to set as **viapoint**. After that, a place will be highlighted in **blue bar**.

2. Click on the **blue bar** to show **Location** options.

3. If you tap **Travel via**, a route will be altered to **pass through** that place

1. Map Tap	2. Travel via button	3. Added viapoint

Upgrade BUY NOW Get Lifetime Navigation Full featured voice guided navigation Personalize Traffic information Premium Speed Cameras Head up display Celebrity Voices Restore your previous purchases Restore

After succesfull login with your **Sygic account**, you will be able to use additional features through **Sygic Store**, such as **Traffic, Head Up Display, Celebrity voices, Speed Cameras** etc.

If you seek more information or support about **Sygic online features**, please see category **Other available products** on our help center page .

Troubleshooting

Dear customer,

if you are experiencing any issues with **Sygic GPS Navigation**, this category will help you solve it.

Please, choose your **type of issue** from the menu on the left side.

If you would not find proper solution in this **User Guide**, please contact our Customer support.

Inaccurate GPS signal for navigation

Please, make sure that **location services** are turned on **iOS settings > Privacy > Location** services, that you are outside and under the clear sky.

If problem continues. please contact our Customer support.

Problem downloading voice/map

Please, try to connect to another wireless network and make sure no **firewall/antivirus** is blocking the connection.

If problem continues please contact our Customer support. Please, send us screenshot from application’s **Menu > Settings > About** with visible Device Name and describe your issue.

Cannot start the application

Please, **uninstall** the application and **install** it from AppStore again.

If problem continues. please contact our Customer support. Please, send us the exact name of the application you are using and model of your device.

Crash/Freeze of application

Please, **uninstall** the application and **install it from AppStore** again.

If problem continues. please contact our Customer support. Please, send us the exact name of the application you are using and model of your device.

Cannot restore purchased license

Please make sure that you have the newest version of the application. Visit the **AppStore** to see if you are updated. If you have the latest possible update, please, follow the steps bellow:

1. Log in with your Sygic account in **Menu > Sign In**.

2. Download some new map from your package via **Menu > Setting > Manage maps**, or delete and download some map you already have downloaded.

3. You need to create route in the map of your purchased region to obtain **GPS location**. Otherwise the app will think you are not located in the area of purchased package.

If problem continues. please contact our Customer support.

Please send us following documents:

- screenshot from your **iTunes purchase history** where the purchase of our app is visible(whole purchase with package).
- screenshot from our **app's Settings -> About** screen with visible DeviceID.
- your **Sygic account** (the e-mail you are using to login in to our application).

Please note: *You can* ***make a screenshot*** *by pressing the Home button and Power button together*

Error message: No Items

Please, uninstall the application and install it from **AppStore** again. If this does not help, please, go to application’s **Menu > Settings > Reset to the defaults**.

Menu > Settings > **Reset to defaults**
